July 20, 2015

## 1 Scope

- Integration of data from *Bd*-Maps
- Integrate Bd and Bsal data from Vredenburg and participating labs
- Evaluate and potentially use some code from the Ranavirus tracker by the Eco Health Alliance
- Mapping as a first tier citizen - directly queryable and sortable maps
- Utilize taxonomy from AmphibiaWeb database

## 2 Project Date

The project is estimated to begin in August 2015. No target release date has yet been set.

## 3 Quote

This quote is for  $\approx 5$  weeks of work.

## 4 Project Contact

The contact for this project is

Michelle Koo  
AmphibiaWeb, associate director  
`mkoo@berkeley.edu`

**Initial Quote:** \$5000
